

To Whom It May Concern:

This comment is being sent to inform you, the FCC, that I find great benefit from listening to XM Satellite Radio including in particular its traffic and weather channels. I had stopped listening to ALL radio for over four years until I subscribed to XM satellite radio because it provides selection, variety and quality that are not available elsewhere. It also provides me with a pleasurable listening experience free of annoying commercials (especially of the local, poorly made variety), over-played music and radio DJ's and their moronic antics. I willingly pay for these services and believe it should NOT be up to the National Association of Broadcasters to dictate what I am permitted to hear.

I respectfully urge you, the FCC, to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.

Regards,  
Christine Haugh
